

Class CM Year 2

PE days - Tuesday and Thursday

Unlocking the learning

Unlocking the learning at home - It is really important that children have the opportunity to use what they learn in school at home.

Get reading - can you research information about the planets in our solar system?

Get exploring - can you find out how to make spaceship that can move?

Get creating - can you create an alien code and speak in a different language ?

Numeracy. We will be covering...

In Numeracy we will be building and securing our knowledge of number using objects, number lines and hundred squares. The children will be reading and writing numbers to 100 in numerals and words as well as counting to 100 and back. They will also be using the language of more than, less than, most and least. Children must be able to recall number bonds to 10 and 20. We will also be working on addition and subtraction through a range of problems. The children will be solving these problems and recording them as number sentences.

In Numeracy we will be learning about time to the hour and half past as well as sequencing events.

Topic. We will be covering...

In Class TF the children will be focusing on the topic 'Moon Zoom'.

During Science we will be learning about materials and what they are best used for. We will also be looking at electricity, making a simple circuit and how we can make a light signal to space for the aliens.

This half term we will be making and creating lots of pictures and models of aliens, spaceships and space toys through a range of techniques such as collages, models and pictures.

In P.E we will be looking at and creating our own alien dance sequences.

Please ensure:

Your child has their PE kit in school – it is important for children to take part in PE for 2 hours every week. We have PE on a Tuesday and Friday. If they do not have their PE kit then your child will receive a letter home asking you to provide them with suitable clothing.

Your child reads at home daily – please keep up with the reading at home as it will help develop imagination for writing, underpin Phonics and help with spelling.

Thank you for your support and we hope to have a great year with you all.

Literacy. We will be covering...

During Literacy this half term we will be securing our knowledge of narrative and non-fiction writing. The children will be creating posters, character profiles and adverts around the alien theme. During this work the children will be developing their vocabulary, collecting and selecting words for effect.

The children will be working hard on their sentence writing by adding connectives and describing words to extend our work. Please ensure that your child reads their home reading book regularly at home as this supports the writing process.
