

## Creative homework Projects for our Home Learning Heroes!

The children in Year 2 will be taking part in ‘Creative Homework Projects’ that we would like them to complete over the coming weeks. They will be able to demonstrate their creative talents and share their findings with the whole class.

Your child should choose at least one task. We hope you see this as an opportunity to support your child in their learning as well as having fun!

All work produced will be on display in your child’s classroom and they will be awarded a certificate.

We look forward to seeing the results and would like the children to bring their completed projects into school from Friday 23<sup>rd</sup> June and by Monday 10<sup>th</sup> July so that they can share and celebrate each other’s achievements.

May we take this opportunity to thank you for your continued support.

Year Two Team

Miss Fletcher   Mrs Crawford Brown   Mrs O’Brien   Mrs Skidmore   Mrs Thomas

### **Secret Garden – Creative Homework Projects**

*Please complete at least ONE of the tasks. Here are some ideas to help you. Please bring to school from 23<sup>rd</sup> June Good Luck!*

#### **Favourite plant**

Do you grow your own plants at home? Can you write instructions for how to plant them? Draw and label each part of the plant.

#### **Plants**

Complete some research about a plant, tree or flower. Where can you find them? What conditions do they like to grow in?

#### **Healthy eating**

Complete a healthy meal for your family or friends. Write a menu for that healthy meal. Can you identify which vegetables or fruits give the specific nutrients you need to be healthy?

#### **Library visit**

Find fiction and non-fiction books at home (or in the local library) about plants and healthy eating.

#### **Research**

Research a particular habitat. What animal lives there? Complete a fact file.

#### **Investigate**

Investigate your own garden. What animals live there? What plants grow there? Draw a picture or write about your garden.

#### **Get creative**

Using junk materials create your own garden with habitats and plants.

#### **Watch a nature show**

Watch a nature show. What have you learnt about nature, animals or plants? What information does it give you? Tell your class about the show you have watched.

#### **Create**

Your own animal that lives in a habitat. Make it, write about it or draw it. Present to your class.
