

## KEY STAGE 2 Home Learning Projects

3/4S 3/4F 3/4J

The children in Key Stage two will be taking part in 'Creative Homework Projects' that we would like them to complete over the coming weeks. The project for this half term is Burps, Bottoms and Bile, a project about teeth and digestion.

We look forward to seeing the results and would like the children to bring their completed projects into school the week beginning Monday 7<sup>th</sup> December 2015 so that they can share and celebrate each other's talents before the end of term. We would ask that this project reflects six weeks' worth of work, and demonstrates the children's own work, although we really appreciate your support in helping them complete their homework.

Thank you for your continued support.

<b><u>Keep a food diary</u></b>	<b><u>Bathroom hogging?</u></b>	<b><u>Immune boosting</u></b>
Keep a food diary and notice what happens as certain foods (like beetroot, sweetcorn and blueberries) pass through your body.	Who spends the most time in the bathroom in your house? Make some observations and display your findings in a graph or chart.	Learn how to boost your immune system. Make a poster or advert for a doctor's surgery helping people to avoid falling victim in the flu season.
<b><u>Horrid habits</u></b>	<b><u>Coin cleaning cola?</u></b>	<b><u>Allergic reactions</u></b>
Do you have any horrid habits (like nail biting or ear picking)? What habits do you dislike in others? Think of some tips on how to give up a horrid habit?	Drop grubby copper-plated coins into a range of fizzy drinks and leave them overnight to see what happens. Which brand has the most powerful cleaning properties?	Some people sneeze because they are allergic to certain substances such as pollen or house dust mites. Survey your family and friends and find out if anyone has an allergy. How will you record this information?
<b><u>Shall we all become dentists?</u></b>	<b><u>Try something new</u></b>	<b><u>The journey of food</u></b>
What qualifications and training do you need to become a dentist? You could quiz your dentist at your next check up! Ask before you have a mouthful of instruments!	Try new food or a drink that you have never tasted before. What do you like or dislike about its taste and texture?	What is the journey a piece of food takes inside your body? Can you write about it or draw it?
