Unlocking the Learning

We are looking forward to receiving some fantastic examples of home learning. To support any children who find it more challenging to achieve their home learning we will be offering resources and ideas in school to get them started. We believe it is very important that every child has the opportunity to engage with learning at home. If you have any problems or concerns please do not hesitate to contact us via email above or epraise.

The project for this half term is "Our World". These tasks will be set as part of our learning and will give you the chance to really develop the children's understanding of the planet on which we live while researching and completing them.

We look forward to seeing the results and would like all the children to share their work by either bringing it in or via email so that we can share and celebrate each other's talents before Friday 18th October. Thank you for your continued support.

Writing	Research	Creative
Write a diary piece as if you are the World. What do you feel about the way people are treating you?	Why not find out how the World started? Can you find out some of the history of our amazing planet?	Can you draw some of the natural wonders of the World, not the ones that society has built.
Design a poster to tell people to care for the World. How can they help to make sure our World is a wonderful place to live?	Research how we get day and night in our World. Does everyone have them at the same time? Why? See what you can learn about time zones.	Can you make a model of the World? Papier mache is good on a balloon or maybe a flat representation?
Write a set of guidelines for caring for our World. Perhaps we can use them to teach other children how to care for the World?	Where do you live in our World? What can you find out about the area you live in?	Represent your favourite part of the World with facts and drawings.

As scientists we will be studying skeletons.

As writers we will studying the texts of Lord of the Forest and The Gorilla.

As mathematicians we will be learning about place value, addition and subtraction.

As geographers we will be learning about Our World.

**Year 3
Autumn 1
Our World**

As designers we will learning about food and making a healthy dip and dippers.

Using our computing skills we will be creating a sequence in music using Scratch.

In music 3B will be learning the Ukulele on Fridays and 3S will be studying writing Music Down.

In PHSE we will be learning about Being me in my World..

In PE we will be learning about Outdoor Adventurous Activities.

Important information
PE is on Wednesday and Friday

In RE we will be learning how festivals show what matters to Muslims.
